PRELIMINARY AMENDMENT

Assistant Commissioner for Patents
 Washington, D.C. 20231

Dear Sir:

Prior to the examination on the merits, please amend the above-identified application as follows:

IN THE CLAIMS:

Please amend claims 8 and 22 as follows:

8. (Amended) The method of claim 1, wherein the web page of the server displayed on the screen of the terminal includes at least one of a separate location/URL input area and a search term input area and a virtual browser window where the secondary web documents are superimposed in layers.

22. (Amended) The apparatus of claim 15, wherein the web page of the server displayed on the screen of the terminal includes at least one of a separate location/URL input area and a search term input area and a virtual browser window where the secondary web documents are superimposed in layers.

Please add claims 34-35 as follows:

34. (New) The method of claim 7, wherein the web page of the server displayed on the screen of the terminal includes at least one of a separate location/URL input area and a search term input area and a virtual browser window where the secondary web documents are superimposed in layers.

35. (New) The apparatus of claim 21, wherein the web page of the server displayed on the screen of the terminal includes at least one of a separate location/URL input area and a search term input area and a virtual browser window where the secondary web documents are superimposed in layers.

Respectfully submitted,
J.C. Patents

P.S. Attached hereto is a marked-up version of the changes made to the specification and claims by the current amendment. The attached page is captioned "Version with markings to show changes made"

VERSION WITH MARKINGS TO SHOW CHANGES MADE

In The Claims:

Claims 8 and 22 have been amended as follows:

8. (Amended) The method of claim 1 [or 7], wherein the web page of the server displayed on the screen of the terminal includes at least one of a separate location/URL input area and a search term input area and a virtual browser window where the secondary web documents are superimposed in layers.

22. (Amended) The apparatus of claim 15 [or 21], wherein the web page of the server displayed on the screen of the terminal includes at least one of a separate location/URL input area and a search term input area and a virtual browser window where the secondary web documents are superimposed in layers.

Claims 34-35 have been newly added.
